**There is no other pending or resolved civil  
action arising out of the transaction or  
occurrence alleged in this complaint.**

**COMPLAINT AND DEMAND FOR JURY**

Plaintiff, Delphi Automotive Systems, LLC, (Delphi) alleges the following for its Complaint against defendants, Furukawa Electric North America APD, Inc., a Foreign Profit Corporation, and The Furukawa Electric Co. Limited, a Foreign Profit Corporation:

**PARTIES, JURISDICTION, AND VENUE**

1. Delphi is incorporated under the laws of the State of Delaware and has its principal place of business at 5825 Delphi Drive, Troy, Michigan 48089-2015. Delphi

manufactures a wide variety of products for the automotive industry, including steering columns for General Motors.

2. Defendant Furukawa Electric North America APD, Inc is a foreign profit corporation authorized to do business in the State of Michigan. Its registered office is 601 Abbott Road, East Lansing, Michigan 48823. Its resident agent is CSC - Lawyers Incorporating Service, 601 Abbott Road, East Lansing, Michigan 48823.

3. The Furukawa Electric Co. Limited is a foreign profit corporation having its principal place of business in Marunouchi, Chiyoda-KU Tokyo, Japan. Defendant Furukawa Electric North America APD, Inc. is its agent, representative, and sales representative within the State of Michigan.

4. The defendants maintain a business office at 47677 Galleon Drive, Plymouth, Michigan 48170.

5. A torque and position sensor, Delphi part number 26085186, is manufactured by the defendants and sold by the defendants to Delphi in accordance with the terms of a Delphi purchase order issued to Furukawa Electric North American APD, Inc. on September 12, 2001, (attached Exhibit A) and in accordance with the terms of a Long Term Contract between Delphi and Furukawa Electric Co. Limited on September 7, 2000 (attached Exhibit B).

6. The torque and position sensor manufactured and sold by the defendants are shipped to Delphi's manufacturing facility in Saginaw, Michigan.

7. The torque and position sensors are assembled by Delphi into Power Steering Assist Mechanisms that are then assembled into steering columns. The steering columns manufactured by Delphi in its Saginaw manufacturing facility, and are sold by Delphi to General Motors Corporation for assembly into General Motors vehicles.

8. Jurisdiction is proper in the Saginaw County Circuit Court pursuant to MCL 600.605 because the amount in controversy exceeds \$25,000.00, exclusive of costs, interest and attorney fees.

9. Venue is proper in this court pursuant to MCL 600.1629. The contracts of the parties were made in Saginaw County.

**COUNT I – BREACH OF CONTRACT**

10. Delphi re-alleges each of the preceding paragraphs in paragraphs 1 through 9.

11. Delphi issued its Purchase Order SAG90I4710 to Furukawa Electric North America APD, Inc. on September 12, 2001. The purchase order provided for the sale by Furukawa Electric North America APD, Inc. of torque and position sensors, Delphi part number 26085186, at an agreed price. (Exhibit A)

12. A Long Term Contract was issued by Delphi acting through its Saginaw steering division as "Buyer" to the Furukawa Electric Co. Limited as "Seller." (Exhibit B) The Long Term Contract provided for the sale by Furukawa Electric Co. Limited of part number 26085186 to Delphi.

13. All parts sold by the defendants were to be manufactured in accordance with specifications provided by Delphi to the defendants.

14. The defendants agreed to manufacture the torque and position sensor in accordance with Delphi specifications and had actual knowledge that failure to conform to Delphi specifications would result in product failure and resultant losses and damages.

15. The torque and position sensors sold by the defendants to Delphi for assembly into its Power Steering Assist Mechanism and its steering columns were subject to warranties that provide:

"7.1 General. Seller warrants and guarantees to Buyer, its successors, assigns and customers that the goods and services covered by this Contract will (a) conform to all applicable specifications, drawings, samples, descriptions, brochures and manuals furnished by Seller or Buyer, (b) will be merchantable, (c) of good material and workmanship, (d) free from defect, and (e) are fit and sufficient for the particular purposes intended by Buyer and any customer of Buyer. If requested by Buyer, Seller will enter into a separate agreement for the administration or processing of warranty chargebacks for nonconforming goods.

\* \* \*

7.3 Warranty Period. The period for each of the foregoing warranties will be that provided by applicable law, except that if Buyer ever provides a longer warranty to its customers, such longer warranty period will apply to the goods covered by this Contract."

16. The defendants requested twice that material revisions be made to the part specifications in order that the defendants could change the physical characteristics of the torque and position sensor. Delphi considered this request for the change in specifications and the requests were not granted for sound metallurgical and engineering reasons.

17. The defendants, acting without the required knowledge and consent of Delphi, materially altered the specifications of the torque and position sensor. This material and unauthorized change was made by the defendants prior to their first request to Delphi to alter the specifications of the part, while knowing that approval of Delphi of the part specification was required. This material and unauthorized change resulted in the failure of the torque and position sensor. The failure of the torque and position sensor led to failures in the Power Steering Assist Mechanism sold by Delphi to General Motors and installed in General Motors vehicles.

18. The defendants acknowledge and admit that they made material changes to the specifications for the torque and position sensor without Delphi's consent.

19. The defendants breached the contracts made between them and Delphi and breached the warranties made by them to Delphi.

20. It is essential that at all times Delphi maintain its reputation with General Motors and with its other customers as a competent skillful manufacturer of automotive parts. The actions of the defendants constituting a breach of contract were intentional, and it was reasonably foreseeable that such intentional acts would cause injury and damage to the reputation of Delphi as a competent and skillful manufacturer of automotive parts.

21. As a direct consequence of the breach of contract, and breach of warranties, and the intentional violation of the terms of the contract, Delphi has sustained losses and damages.

WHEREFORE Delphi claims damages and exemplary damages from the defendants, and each of them, in an amount in excess of \$25,000.00, together with interest, costs, and attorneys fees.

#### **COUNT II – VIOLATION OF UCC WARRANTIES**

22. Delphi re-alleges each of the preceding paragraphs made in paragraphs 1 through 21.

23. The contracts made between Delphi and the defendants are subject to the provisions of the Michigan Uniform Commercial Code.

24. At the time that the contracts were made between Delphi and the defendants, the defendants had reason to know that the torque and position sensors would be used for a particular purpose and that Delphi was relying upon the skill and judgment of the defendants to furnish suitable goods meeting the specifications of Delphi.

25. The defendants expressly warranted that the torque and position sensors would be manufactured in strict accordance with Delphi's engineering and quality specifications.

26. The defendants breached the express and implied warranties created by the contracts and by the provisions of Michigan Uniform Commercial Code. MCLA 440.2315, MCLA 440.2313.

27. As a direct consequence of the breach of express and implied warranties and the intentional violations of the terms of the contracts and the Michigan Uniform Commercial Code, Delphi has sustained losses and damages.

WHEREFORE Delphi claims damages and exemplary damages from the defendants, and each of them, in an amount in excess of \$25,000.00, together with interest, costs, and attorneys fees.

### **COUNT III – TORTIOUS INTERFERENCE**

28. Delphi re-alleges each of the preceding paragraphs made in paragraphs 1 through 27.

29. At all times pertinent to this complaint Delphi had a business relationship with General Motors Corporation and the expectancy of future business with General Motors Corporation.

30. The business relationship and the expectancy of a continuing business relationship had a reasonable likelihood of future economic benefit for Delphi.

31. The defendants, and each of them, knew of Delphi's business relationship with General Motors and its expectation that the economically beneficial business relationship would continue.

32. Defendants manufactured and sold to Delphi torque and position sensors that did not meet the manufacturing specifications of Delphi and were unsuitable for installation into electric steering columns.

33. The intentional sale of a known defective parts interfered with Delphi's business relationship with General Motors and Delphi's expectancy of a continuing business relationship.

34. The actions of the defendants were improper and the improper conduct interfered with Delphi's business relationship with General Motors and the expectancy of continuing business relationship.

35. The defendants' conduct has caused a disruption in the business relationship existing between Delphi and General Motors. The Delphi steering columns sold to General Motors and installed by General Motors in its vehicles have been subject to warranty issues because they do not meet Delphi and General Motors specifications.

36. There is a reasonable likelihood that the intentional conduct of the defendants will further disrupt and damage the business relationship existing between Delphi and General Motors and the expectancy of a continuing business relationship between Delphi and General Motors.

37. Delphi has been financially damaged as a direct result of defendant's intentional and tortious conduct.

WHEREFORE Delphi claims damages and exemplary damages from the defendants, and each of them, in an amount in excess of \$25,000.00, together with interest, costs, and attorneys fees.

**COUNT III – FRAUD AND MISREPRESENTATION**

38. Delphi re-alleges each of the allegations made in paragraphs 1 through 37 inclusive.

39. At all times pertinent to this complaint the defendants, and each of them, represented to Delphi that the torque and position sensor manufactured by them met the manufacturing specifications of Delphi and General Motors.

40. The representations made by the defendants were false.

41. The defendants knew that the representations were false.

42. The defendants recklessly represented that the torque and position sensor met the specifications of Delphi and General Motors without knowing whether the representation was true.

43. Defendants made the representations with the intent that Delphi rely upon their representations.

44. Delphi relied upon the representations made by the defendants.

45. Delphi was damaged as a result of its reliance upon the representations made by the defendants and each of them.

WHEREFORE Delphi claims damages and exemplary damages from the defendants, and each of them, in an amount in excess of \$25,000.00, together with interest, costs, and attorneys fees.

## **LONG TERM CONTRACT**

### **1. Purchase of Product**

The Furukawa Electric Co.,Ltd. ("Seller") agrees to sell, and Delphi Automotive Systems LLC acting through its Saginaw Steering Division ("Buyer") agrees to purchase, approximately one hundred percent (100%) of Buyer's production and service requirements for the following products (each referred to as a "Product" and collectively referred to as the "Products"):

| <b>Part Number</b>                             | <b>Description</b>  | <b>Per Unit Price</b> | <b>Annual Daily Tool Capacity</b>   |
|--|---|-----------------------|---|
| 26085186-000<br>Specification;<br>26079879-043 | Gamma and<br>Epsilon program;<br>Sensor Assembly<br>Torque & Position | \$13.00 USD           | Production tooling capacity is<br>167pcs/hour/tool.<br>Assembly line capacity is 300<br>pcs/hour.<br>Above capacity references<br>8/18/2000 quotation and<br>includes Gamma,Epsilon,Fiat<br>169, fiat y843 programs.<br>Tooling limiter is plastic<br>injection molds, 2 tools or 334<br>pcs/hour total.<br>Tooling cost for Gamma,<br>Epsilon, and Fiat 169 programs<br>shown on this contract is<br>\$1,125,667.00 .<br>(Tooling will be paid in a lump<br>sum upon PPAP approval.) |
| 26089247-000<br>Specification;<br>26079879-043 | Fiat 169 (600);<br>Sensor Assembly<br>Torque & Position               | \$13.00 USD           |   |

### **2. Term**

With respect to each Product, the term of this Contract is from Calendar Year 2002 through 7/1/2007.

### **3. Prices**

The per unit price of each Product for Calendar Year 2002 is F.O.B. Plymouth Michigan for Epsilon Requirements, Cadiz, Spain for Gamma & Fiat 169(600) Requirements. (1990 IncoTerms). Pricing for each subsequent calendar year is subject to the following minimum annual percentage reductions from the prior Calendar Year's pricing:

|                    |             |
|--------------------|-------------|
| Calendar Year 2003 | 3.5 percent |
| Calendar Year 2004 | 3 percent   |
| Calendar Year 2005 | 3 percent   |
| Calendar Year 2006 | 3 percent   |
| Calendar Year 2007 | 3 percent   |

Buyer and Seller will use their best efforts to implement cost savings and productivity improvements in order to reduce Seller's costs of supplying each Product. Buyer and Seller agree that the pricing of each Product will be reduced (in addition to any scheduled price reductions) by an amount equal to fifty percent (50%) of any net cost savings achieved by Seller with respect to such Product (i.e., savings after recovery by Seller of a pro rata portion, based on the remaining term of this Contract, of the reasonable and documented costs to achieve such cost savings), provided, however, that the pricing of each Product will be reduced (in addition to any scheduled price reductions) by an amount equal to one hundred percent (100%) of any savings resulting from reduction on the content of the such Product.

No price increases (including any decrease of the scheduled price reductions) will be made on account of (i) Seller's failure to achieve any expected cost savings or productivity improvements or (ii) any increases in Seller's labor, materials, overhead and other costs. In the event that Buyer agrees to any price increases (or a decrease of any scheduled price reductions) with respect to any Product, then, notwithstanding anything to the contrary set forth in this Contract, the pricing of each Products will be reduced (in addition to any scheduled price reductions) by an amount equal to one hundred percent (100%) of any subsequent net cost savings achieved by Seller with respect to such Product until aggregate price reductions on account of Seller's cost savings equal any price increases previously agreed to by Buyer.

#### **4. Right to Purchase from Others**

During the entire term of this Contract, Seller will assure that each Product remains competitive in terms of technology, design, service and quality with any similar product available to Buyer. If, in the reasonable opinion of Buyer, a Product does not remain competitive, Buyer, to the extent it is free to do so, will advise Seller in writing of the area(s) in which a similar product is more competitive. If, within ninety (90) days, Seller does not agree to immediately sell any Product with comparable technology, design, quality, or, if applicable, price, Buyer may elect to purchase any similar products available to Buyer without any liability to Seller under this Contract.

#### **5. Purchase Orders**

All Products will be ordered by Buyer, and delivered by Seller, in accordance with written purchase orders (including related delivery releases and shipping

Instructions) issued by Buyer from time to time during the term of this Contract. Buyer's General Terms and Conditions, a copy of which is attached, are hereby incorporated into this Contract by reference, provided, however, that Buyer's right to "terminate for convenience" under the General Terms and Conditions will be inapplicable to this Contract until 7/1/2007. Any amendment to, or revision of, such General Terms and Conditions shall also become a part of this Contract, provided that (i) Buyer provides Seller with a copy of such revised Terms and Conditions and (ii) Seller does not object to such revised Terms and Conditions in writing within thirty (30) days after receipt. The Terms and Conditions (together with any revision made a part of this Contract) shall be construed, to the extent possible, as consistent with the terms and conditions set forth in this Contract and as cumulative, provided, however, that if such construction is unreasonable, the terms and conditions set forth in this Contract shall control.

EXECUTED by Buyer and Seller as of 9/7/00.
